

**Do you want to help with empirical research looking into the impact of bank branches on the local economy?
Come to the Slovak Academy of Sciences!**

The Institute of Economic Research of the Slovak Academy of Sciences is looking to hire a **young research assistant**, with skills in data processing and the willingness to learn. The job is ideal for **master students** in economics, social sciences or mathematics and quantitative methods.

The Institute of Economic Research of the Slovak Academy of Sciences is one of the most well-esteemed economic research institutes in Slovakia. It shelters an exhaustive list of prominent researchers. Thus, offering a favourable environment stimulating professional growth of young researchers, as well as an intensive engagement in applied research projects in the fields of economic policy and data analysis.

Job description:

This is a time-limited assistance related to the creation of a database of the location of bank branches in Slovakia for the period 2018, 2019 and 2020. At the same time, it will be necessary to process and analyze in more detail company data obtained from financial statements of individual companies. The work is part of the international project funded by the Regional Studies Association. More details:

<https://www.regionalstudies.org/people/maria-siranova/>

Remuneration:

Paid after the submission of the finalized work, a one-time payment of **1400 EUR (gross)**.

Duration:

Expected start - **July 2021**, expected ending – **September/October 2021**.

Place:

Online & offline (Bratislava), upon agreement and conditional on pandemic situation.

If you are interested in the position, please, send a CV and a short motivation, until the 15/6/2021 to: maria.siranova@savba.sk
